Our Story

We launched EcoBharat to provide sustainable and eco-friendly options that would help keep the planet green. Our vision is to become a leading provider of sustainable products and to contribute meaningfully to the fight against plastic pollution.

Mission

At Eco-Bharat, we are committed to providing our customers with high-quality organic plastic covers that are both sustainable and environmentally responsible. We strive to minimize our environmental footprint by reducing waste and conserving resources. Our mission is to promote the use of eco-friendly products and contribute to a cleaner, greener planet.

Vision

We envision a future where eco-friendly products are the norm, and our planet is free from the harmful effects of plastic pollution. We aim to be a leader in the organic plastic cover manufacturing industry and to set a new standard for sustainable manufacturing practices.

What We are Solving

The problem of plastic pollution. The best way to do this is by providing eco-friendly alternatives that are both good for the environment and convenient and affordable for consumers. To achieve this, we focused on developing a range of single-use eco-friendly products, as alternatives to existing single-use plastic products.

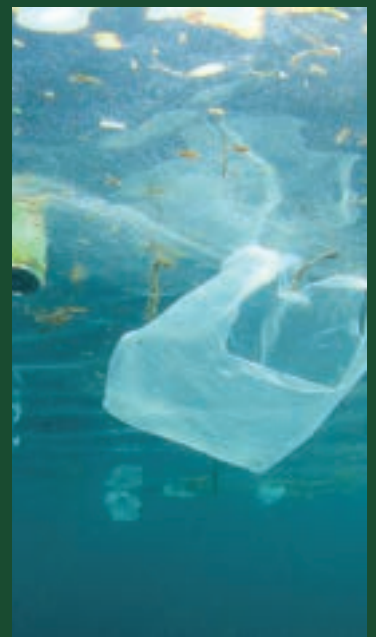

Our core values include:

Innovation: We are constantly exploring new ways to improve our products and manufacturing processes.

Responsibility: We take responsibility for our actions and their impact on the environment and society.

Sustainability: We are committed to creating sustainable products that promote a cleaner, greener planet.

Quality: We strive to deliver high-quality products that meet the needs of our customers.

Why Use

EcoBharat

1. Non-toxic

The products have been carefully crafted using biodegradable materials that are derived from natural sources, ensuring that they do not have any harmful effects on the environment. By opting for biodegradable natural materials, we can significantly reduce our carbon footprint and contribute to a cleaner, healthier world for future generations.

2. Biodegradable & compostable

Not only are these products made from biodegradable natural materials that are eco-friendly, but they are also designed to decompose within a relatively short period of time. With a decomposition rate of just 180 days, these products can quickly break down and be safely added to your garden soil or compost pit.

3. Cost-effective

At our company, we believe that sustainable products should not come at an exorbitant cost. Therefore, we strive to offer our customers eco-friendly products that are highly affordable, making it easy for individuals and businesses alike to reduce their environmental impact without breaking the bank.

8×12	30	205	1.000 kg
9×15	35	145	2.000 kg
10×17	40	110	3.000 kg
13×20	45	55	5.000 kg
16×24	45	40	10.000 kg

Butter Cover

Size (inch)	Microns	No.of Pcs
9×9	30	450
12×12	30	380

Market Position

At Eco-Bharat, we are committed to providing our customers with high-quality organic plastic covers that are both sustainable and environmentally responsible. We strive to minimize our environmental footprint by reducing waste and conserving resources. Our mission is to promote the use of eco-friendly products and contribute to a cleaner, greener planet.

In addition to environmental concerns, EcoBharat's target market also includes customers who value durability and design in their products. These customers want products that are not only environmentally friendly but also functional and aesthetically pleasing.

The company's focus on sustainability and eco-friendliness aligns with the values of environmentally conscious customers who are increasingly aware of the impact of single-use plastics on the environment. By offering alternatives to single-use plastic items, EcoBharat is able to cater to this growing customer segment.

Overall, EcoBharat's target market is made up of customers who prioritize sustainability, durability, and design in their products. By catering to these customers, the company is able to differentiate itself in the market and appeal to a growing segment of environmentally conscious consumers.

Future Outlook

One of the key areas of focus for EcoBharat in the future is to expand its product line to include other eco-friendly alternatives. The company is also exploring options to develop sustainable packaging solutions for food and other consumer goods.

The company plans to expand its operations to new markets, both domestic and international, to reach a wider audience and make a greater impact. This will be achieved through a combination of online and offline channels, including e-commerce platforms and physical retail outlets.

Overview

EcoBharat is a leading manufacturer of organic plastic covers that are sustainable, high-quality, and eco-friendly. We are committed to providing our customers with products that meet their needs while promoting a cleaner, greener planet. With our focus on innovation and sustainability, we are well-positioned to be a leader in the organic plastic cover manufacturing industry for years to come.
